The A15BT matches, bridges, or isolates balanced and unbalanced devices of different impedances and levels.

**Impedance:** XLR socket (Female), 33,000Ω  
XLR plug (Male), 7500Ω, easily converted to 600Ω.

**Unbalancing:** Either end can be unbalanced by connecting pins 1 and 3.

**Voltage difference:**  
From 33,000Ω to 7500Ω, 6.4 dB  
From 33,000Ω to 600Ω, 17.4 dB.

**MEDIUM-IMPEDANCE SELECTION**  
As supplied, the A15BT XLR plug is at 7500Ω. To convert to 600Ω, refer to Figure 1 and proceed as follows:

1. Remove the three-pin plug element by turning the screw counterclock-wise and withdrawing the element from the case.
2. Remove the GREEN lead pin jack from pin 3, and insulate the jack and bare lead.
3. Remove the tape from the pin jack on the WHITE lead and push the jack firmly onto pin 3.
4. Replace the plug element in the housing and fasten the screw firmly in place (turn clockwise).
TYPICAL APPLICATIONS

To connect the 600 line output of a preamplifier, mixer, or recorder to a high-level, high-impedance, unbalanced (Aux) input:

Connect the 600Ω output to the 33,000Ω XLR socket of the A15BT. Unbalance the XLR plug on the A15BT and convert it to 7500Ω or 600Ω to provide the proper level and best signal-to-noise ratio. Connect the A15BT to the Aux input. In this configuration, the A15BT “bridges” the 600Ω line output. Refer to the table on the back page for the maximum input level to the A15BT.

To match a high-impedance microphone output to a medium-impedance (approximately 10,000 Ω) input on a reel-to-reel or cassette recorder: Unbalance both ends of the A15BT. Connect the microphone output to the 33,000Ω XLR socket. Connect the 7,500Ω XLR plug to the recorder.

For an unbalanced Aux input to accept a balanced low-impedance output: Unbalance the 33,000Ω XLR socket on the A15BT and connect it to the Aux input. Convert the XLR plug to 7500Ω or 600Ω and connect it to the balanced low-impedance device.

When a balanced 600 line output is needed on a unit with an Aux output (such as the Shure SCM268):

Unbalance the A15BT 33,000Ω XLR socket and connect it to the Aux output. The A15BT XLR plug offers a balanced line output at both 600Ω (at about a –20 dBm level) and 7500Ω.

SPECIFICATIONS

Frequency Response

20 to 20,000 Hz (See Figure below)
Impedance

XLR Pin Connector (M): 7500Ω or 600Ω

XLR Socket Connector (F): 33,000Ω

Voltage Ratio

Medium-impedance to high-impedance:
- 7500Ω: +6.4 dB
- 600Ω: +17.4 dB

High-impedance to medium-impedance:
- 7500Ω: −6.4 dB
- 600Ω: −17.4 dB

LIMITED WARRANTY

Shure Incorporated (‘Shure’) hereby warrants to the original consumer purchaser only that this product will be free in normal use of any defects in materials and workmanship for a period of two (2) years from the consumer’s original date of purchase directly from Shure or from a Shure-authorized reseller. At its sole option, Shure will repair or replace the defective product and promptly return it to you. In order for this warranty to be valid, the consumer must, at the time the product is returned, provide proof of purchase in the form of the original purchase receipt directly from Shure or from a Shure-authorized reseller. If Shure elects to replace the defective product, then Shure reserves the right to replace the defective product with another product of the same model or a model of at least comparable quality and features in Shure’s sole determination.

If you believe this product is defective within the warranty period, carefully repack the unit, insure it and return it with proof of purchase, postage prepaid, to Shure Incorporated, Attention: Service Department, at the address below.

Outside of the United States, return the product to your dealer or Authorized Service Center. Addresses are listed on www.Shure.com or can be obtained by contacting Shure at the address listed below.

This warranty is not transferable. This warranty does not apply in cases of abuse or misuse of the product, use contrary to Shure’s instruction, ordinary wear and tear, an act of God, negligent use, purchase from a party other than Shure or a Shure-authorized reseller, unauthorized repair, or modification of the product.

ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED TO THE EXTENT PERMITTED UNDER APPLICABLE LAWS AND, TO THE EXTENT NOT PERMITTED, ARE HEREBY LIMITED TO THE DURATION AND TERMS OF THIS WARRANTY. SHURE ALSO HEREBY DISCLAIMS ALL LIABILITY FOR INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

This warranty does not restrict the rights of the consumer mandated under applicable laws.

THIS WARRANTY SUPERSEDES ALL OTHER WARRANTIES THAT ARE ASSOCIATED OR INCLUDED WITH THIS PRODUCT.
