These sound-isolating earphones with VoicePort inline microphone connect to both your cell phone and portable media player. The inline control switch allows you to easily transition from listening to music to answering phone calls. WideBand MicroDrivers deliver an extended frequency soundstage that you can now enjoy at low listening levels, even in noisy environments.

**WEARING THE EARPHONES**

Wear the earphones as illustrated below.

**INSERTING THE EARPHONES**

If the earphone seems to be lacking in low frequency response (bass), check the tightness of the seal between the earphone and your ear, or try one of the other sleeve options.

**CHOOSING AN EARPHONE SLEEVE**

Your earphones come with a selection of sleeves. Make sure the sleeve you use is easy to insert into your ear, fits comfortably, and is easy to remove from your ear.

- **Flex Sleeves**
  - In small, medium, and large sizes. Made from translucent PVC.

- **Soft Flex Sleeves**
  - In small, medium, and large sizes. Made from pliable rubber.

- **Foam Sleeves**
  - When using the foam sleeves, compress the sleeve between your fingers before inserting it into the ear canal. Hold the earphone in place for about ten seconds while the foam expands and creates a tight seal.

- **Triple-Flange Sleeves (Optional Accessory)**
  - If desired, the sleeve nozzle may be shortened. Use sharp scissors to carefully trim the nozzle to the desired length.

**INLINE SWITCH CONTROL**

Push and hold to MUTE cell phone microphone

**CLEANING THE EARPHONE NOZZLE**

If the nozzle of your earphone is blocked, clean the nozzle using the supplied wax removal loop.

- **Warning:** Do not push the earphone sleeve beyond the ear canal opening. Make sure that the sleeve completely covers the earphone nozzle. If any part of the nozzle is exposed, the sleeve is not properly installed.

- **Note:** Turn volume control to its lowest setting before switching between music and cell phone. Switching to media during a call mutes cell phone.

- **Audio Source:**
  - cell phone
  - media player

- **Volume**

- **Nozzle**

- **Wax Removal Loop**

- **Over the ear in front**

- **Left**

- **Right**
MAINTENANCE

Careful maintenance ensures a tight seal between the sleeve and nozzle, improving sound quality and product safety.

Keep the earphones and sleeves as clean and dry as possible.

Do not expose earphones to extreme temperatures.

Wipe the earphones and sleeves with mild antiseptic to avoid infections. Do not use alcohol-based disinfectants.

CUSTOM EARPHONE SLEEVES

Those who use earphones regularly for extended periods of time often find custom-fit molded sleeves offer the best comfort and sound isolation.

Ask a Hearing Health Care Professional about creating custom molded sleeves for your earphones. For more information, contact:

Sensaphonics Hearing Conservation

FURNISHED ACCESSORIES

Carrying pouch ................................. 95B2232
Fit Kit w/cleaning tool and replacement sleeves . . . . 90XJ1371

REPLACEMENT PARTS

Bag of 20 foam sleeves ........................ PA750
Bag of 500 foam sleeves ........................ PA754
Bag of 10 clear flex sleeves ........................ (small) PA756S
............................................................................... (medium) PA756M
............................................................................... (large) PA756L
Bag of 10 soft flex sleeves ........................ (small) PA758S
............................................................................... (medium) PA758M
............................................................................... (large) PA758L
Triple-range sleeves (2) ......................... PA755

MAINTENANCE

Careful maintenance ensures a tight seal between the sleeve and nozzle, improving sound quality and product safety.

Keep the earphones and sleeves as clean and dry as possible.

Do not expose earphones to extreme temperatures.

Wipe the earphones and sleeves with mild antiseptic to avoid infections. Do not use alcohol-based disinfectants.

CERTIFICATION

Eligible to bear CE marking.

Conforms to European EMC Directive 89/336/EEC.

SAFE USE

Use a slow twisting motion to remove the earphones. Never pull on the earphone cord.

Warning: If a sleeve becomes lodged in your ear, seek skilled medical assistance to remove the sleeve. Damage to the ear may be caused by non-professionals attempting to remove the sleeve.

Prior to inserting the earphone, always recheck the sleeve to make sure it is firmly attached to the nozzle.

Turn up the volume control only far enough to hear properly.

Ringing in the ears may indicate that the volume level is too high. Try lowering the volume.

If you connect these earphones to an airplane’s sound system, listen at low levels so that loud messages from the pilot do not cause discomfort.

Have your ears checked by an audiologist on a regular basis. If you experience wax buildup, discontinue use until an audiologist has examined your ears.

Stop using the earphones if they are causing great discomfort or infection.
